Permit Effective: **Feb 29, 2024**

Permit Expires: **Feb 28, 2026**

Material Category: **Liquid Organic**

Material Type: **Liquid Organic**

The EBMUD Wastewater Treatment Plant is located at 2020 Wake Avenue, Oakland. The Plant is open to receive loads 24 hours/day, 7 days/week, including holidays, for routine transactions. Appointments must be scheduled in advance with the Senior Plant Inspector at 510-287-1611 or 510-385-6157 for non-routine transactions such as: receiving an EBMUD-issued truck decal; driver Site Orientation; and first load confirmation sample for each new waste stream during business hours.

PLANT HAZARDS

1. NO SMOKING. It is an on-site Safety Hazard as there are flammable gases, oxygen and methane present.
2. During transportation, degradation of the waste material may occur inside the tanker and build up gases that may have Immediately Dangerous Life and Health concentrations present when the driver vents the tanker.
3. Infectious materials are present at the Plant and managed in the wastewater treatment process.
4. In the event you hear an emergency alarm of six long tones, call the shift supervisor at 510-287-1522 (when using on-site phone, dial 1522) or inquire at Security Office for further instruction.
5. Construction activities. When overhead activities are occurring hard hats (available) are required.

RULES OF CONDUCT

1. EBMUD's policy prohibits discrimination, harassment or retaliation in the workplace against ANY person, including visitors and contractors.
2. No engine idling while parked or discharging, unless required for discharge.
3. Speed Limit is 10 miles per hour unless otherwise posted.
4. If you find a spill, report it to District staff. If no one is at the location, call the shift supervisor at 510-287-1522 (when using on-site phone, dial 1522) or report at Security Office before off-loading. Drivers are responsible for wash down of own spills.
5. Driver must be in compliance with all OSHA regulations, in particular fall protection per Title 8 CA Code Regulations Sections 3210(b) and 5155. Driver must not break plane of trailer (i.e., do not put your head inside hatch). Do not stand on tanker without OSHA specific fall protection.
6. Trucks must have back up alarms.
7. Driver to lock brakes before commencing to discharge.
8. Drivers must stay with truck/tanker during discharge.
9. All waste must be discharged through hose directly to pipe. Do not disconnect site discharge hose from discharge pipe. Do not discharge from the trailer directly to the wash down trench.
10. No exterior truck or trailer washing is permitted.
11. Do not leave any trash or debris at the discharge area. Trash cans are NOT for personal use.
12. Do not drink or wash hands with wash down water as it is non-potable!
13. Firearms and other weapons, as defined in the California Penal Code, are not permitted on EBMUD property;
